Berlin, Dec. 8 (INS)—A whole army of educated Germans, altogether 135,000 college graduates, physicians, jurists, philologists and engineers, has become jobless during the last three years.

The Reich Association of German Industrialists, the union of German employers, and association of German university men have issued a joint grave warning against a further crash in the universities and technical high schools.

More than 15 per cent of 50,000 qualified physicians are without and over 20,000 engineers with a college education are unemployed.

22 RAIL UNIONS TALK PAY CUT

Chicago, Dec. 8 (AP)—The proposal of the railroads for a 10 per cent wage reduction was up for consideration today before more than 1500 representatives of 22 standard railroad unions in this city.

The general meeting was called after two days of group and joint conferences at which the four big brotherhoods and a fifth large group, the Switchmen's Union, considered alternative measures to avoid the wage cut.

Little has been said about these alternatives, however, beyond reports that union leaders hoped to effect a permanent stabilization of employment by a more equitable distribution of hours.

Union officials said the 10 per cent pay cut announced yesterday by the Illinois Central for employees who were not members of a union or protected by contract agreements, and the circulation of a strike proposal among maintenance employees at the Chicago Northwestern would have an effect on the union negotiations with the railroad.

KILLING LAID TO TRIANGLE

Taunton, Dec. 8.—From the cot in Minton Hospital on which he lay dying from a self-inflicted bullet wound, Louis Pina, 25, who, according to the police, shot and killed his wife, Eugene, 28, mother of his six children, today blamed his troubles on "another man."

Dr. Alvin William C. Crowley today said Pina named a Mansfield man, an employee of a Taunton motor car company, as the cause, which led to the shooting last night.

A warrant for the arrest of Pina on a charge of murder was issued today, but physicians said they believed death would intervene. His name is on the danger list.

WAR IN HOME OF 'PEACE' BARON

New York, Dec. 8 (AP)—Although permanent international peace is the objective of Baron Karl Ferdinand Tilly, he has failed to establish it in his home.

Baron Tilly appealed to Supreme Court to release in him Baroness Tilly, whom he charges is being detained by her parents, Hubert John Tork of the Greek Orthodox Church and Mrs. Tork.

The baroness denied such was the case and declared that the baron's abandonment of her was responsible for her absence.

Besides charging that Tilly used "brute force" to compel her to seek money from relatives to be used on his estate in Austria, she asserted that he took from her all insurance she received from her parents and from it gave her a dollar a day.

The plans for world-wide peace which Baron Tilly submitted to President Hoover more than a year ago, included the establishment of a world institute on his ancestral estate on the Danube.

AUTOS TO KILL 34,000 IN '31

Hartford, Ct., Dec. 8 (INS)—Although deaths in automobile accidents in this country as a whole showed a drop since August in comparison with the same period last year, total fatalities for 1931 are estimated at 34,000.

This is an increase over last year of 25 per cent, said a report issued today by the Travelers Insurance Company.

"On the basis of the forecast decrease in registration of motor vehicles, the reported gain in deaths means an increase of about 5 per cent in fatalities per 100 cars registered," said the report.

Maine, New Hampshire and Vermont have reported decreases, while in Massachusetts the deaths have headed the same this year as last for 10 months.

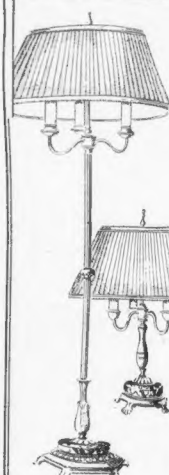

Of the states which have reported fatalities for the latest available period, Wyoming, Oregon and Montana show increases of 25, 32 and 10 per cent, respectively.

Partner in the Culbertson-Lenz
Match.

NEW YORK, Dec. 9.—During
the course of the bridge match
now in progress, all four of us
will make errors and brilliant
plays and it is my intention to
draw on the brilliant plays,
rather than on the mistakes.

I stand from time to time to
summarize the accumulated mis-
plays and to have the summarize-
lings decided by agreement on the
part of all players, including
the players as they play. Some-
times I have more bridge cham-
pionships than any other player
also, in my mind the foremost ac-
tivist in the country.

BET SOMETIMES HELP
I was much amused to read in
some of the newspapers the state-
ments that I was not a bridge
player. I am a bridge player. I
know that it is much better in
the long run to get down two
tricks when you have a partner
than to win a game when you
play alone. I am a bridge player.

I have been playing bridge for
many years. I have been playing
bridge for many years. I have
been playing bridge for many
years. I have been playing bridge
for many years. I have been
playing bridge for many years.

was the final bid of that rubber,
and my partner played the bidding
with one spade. His hand contained
three honor tricks and excellent dis-
tribution.

Mr. Lenz passed and I bid three
spades. Mr. Jacoby made a con-
spicuous bid of four clubs on a six-
card suit and an outside ace. My
partner then bid five clubs.

PARTNER'S WARNING
It is perhaps incorrect to speak
of this as a slam invitation. Facing
the message in me was a request
to bid the slam if I had any values
in addition to those already shown.

WIN GAME, REHEARSE
My bid of five clubs could show
only one thing at this time and that
was a void in the suit. Thus we
were faced with duplication of
values and on I bid five spades and
my partner, who was not to attempt
the slam. In the play five
spades were made.

Lubliner contract bridge

WANTS TO BET \$25,000
Jacoby took the bet, and Culbert-

game.

This time there were no takers,
as Culbertson was still mulling
about being ready to bet up to \$25,000
at two in one odds when the
referee told him to put his money
down and get on with the game.

CLAIM MEN SAW DEATH CLASH

Hampton, Va., Dec. 9 (INS)—Prof. Eliska Kent Kane, 3rd, listened today to the stories of the York County claim tongs who saw his last struggles with his wife, Jenny Graham Kane, in the waters off Grand View Beach.

The tongs witnesses for the prosecution in the trial of Kane for his wife's murder agree they saw two people in the water and heard "a lot of hallooing."

They were too far away to distinguish the figures, but they were sure the two were close together. Professor Kane has said he was 200 yards away when Mrs. Kane first cried out.

"But I couldn't tell if the screams were in play or not," declared J. F. Hollaway, the second witness.

Robber Flees With \$17,000 in Jewelry

New York, Dec. 9 (AP)—A robbery who never showed a weapon stole jewelry valued at \$17,000 today from the shop of the Clayton Jewellers, Inc., on Broadway, after locking up one of the partners and a window cleaner in the rear of the store.

Wrote Message with Frozen Ink

By ARTHUR 'BUGS' BAER

"We do this every morning," said Congress when it jumped under Mr. Hoover's cold showers.

Herbert sure turned on the ice water for the taxpayers, the Army and the Navy.

The message is not an absolute cure. The best we can say for it is that it is a wheel chair.

It helps the humpers and the railroads, but the passengers must jump.

While skilling for the territorial integrity of China it realizes that Manchuria is a devil that will never be replaced.

The dele and the bonus add up to two crullers and no coffee.

It favors stronger law enforcement that the government of the people shall not perish from the irks.

No change in the tariff and very little in the cash register. (Copyright, 1931, by National Service, Inc.)

LOWDEN URGES LAND VALUES

Chicago, Dec. 9 (AP)—America may never return to its former prosperity, Frank O. Lowden, former governor of Illinois, said today, unless it again becomes respectable to own land.

"To all the past good land has been one of the subjects most keenly sought," Mr. Lowden, who owns extensive tracts, told the American Farm Bureau Federation.

"Not only have individuals on thought of land, but nations as well regarded themselves happy when they could add to their domain some area somewhere of little soil."

"All at once, however, we seem to have abandoned our idea as to their importance and value. Perhaps in the earlier times we attached too much importance to land, if so, we have now gone to the other extreme."

Veteran Agent Dies

Springfield, Dec. 9 (AP)—Stephen H. Williams, 75, oldest life insurance agent in this city both in point of years and service, died today. He had been a representative of the Connecticut General Life Insurance Company for 44 years.

Drug Store Burglar Returns Loot With 2 Cents 'Interest'

Milford, Pa., Dec. 9 (AP)—When William H. Schmidt opened his drug store yesterday, he found a robber had taken 11 watches, 30 fountain pens, two cartons of cigarettes and 23 pennies from each cash register.

When he opened the store this morning there was a bag in the doorway, containing the watches, pens, cigarettes and 32 cents in pennies, with a note which read:

"I never stole before and my conscience hurt me. Here is your watch and pens and cigarettes and pennies with 2 cents interest. Faithfully your friend."

Jenkins for Cut in Immigration Quotas

Washington, Dec. 9 (AP)—A wide cut in immigration quotas was proposed today by Rep. Jenkins (R), Ohio. "In every case," he recommended, "the quota should be reduced to one-half of the present figure."

Jenkins introduced legislation identical with that passed by the House last year. It would cut all quotas 50 per cent and put western hemisphere countries on quotas based on their 1920 entries reduced by 50 per cent.

NAVAL CHIEF HITS ECONOMY

Washington, Dec. 9 (INS)—The administration's "economy program" of operation is seriously impeding the strength of the United States Navy, Rear Admiral Frank R. Upham, chief of the bureau of operations, said today.

In his annual report to Secretary Adams, Upham offered with President Hoover's message to Congress, questioning both the army and the navy have been maintained in a high state of efficiency.

Upham said, in effect, the navy was being starved of such men and ships.

"The efficiency of the navy depends upon the maintenance of a personnel possessing the highest professional attainments and most sufficient in number to provide officers and men, to man the ships required under the current operating force plan and the shore stations, and with reserves adequate to man fully the entire naval establishment that will be immediately required upon its outbreak of war," Upham said.

The fiscal year ending Jan. 30, 1932, witnessed a reduction in the strength of the enlisted personnel, exclusive of those paid for by the veterans' bureau, from 31,000 to 25,000, the number actually in the navy on June 30."

Amos 'n' Andy in Shirts? Horrors, 'Taint Legal!

Washington, Dec. 9 (AP)—No one can look to the name "Amos 'n' Andy" with a favorable eye. Neither can they look to any other purpose, it belongs to the firm of Charles J. Connel and Freeman F. Gosler, whose names long have been in the rain.

The Patent Office said today that Connel and Gosler are owners of the title. David Perkins of Baltimore had sought to register "Amos 'n' Andy" as a trade mark for shirts. Objections by Amos and Andy was suspended.

TARR 'DOES NOT KNOW' HULTMAN

No reasonable person can expect the federal government's attorney to enforce prohibition in Massachusetts, U. S. Atty. Frederick T. Tarr said today.

The statement was made in the course of a lengthy reply to an attack on liquor sales and their prohibition in the local federal force attributed to Rev. Dr. A. C. Conrad of the Park Street Church.

The federal attorney said reports that he had refused to co-operate with Police Commissioner Hultman were untrue.

"I do not know Commissioner Hultman," he said.

Slain at 108 When His Begging Ceased to Pay Well

Katowice, Polish Upper-Silesia, Dec. 9 (INS)—By a queer twist of fate Jan Kaczmarek who succeeded in attaining the ripe old age of 108 years failed to die a natural death but was murdered. Villagers found his body in a stable. The landlady and his wife confessed that they choked the old man's throat because the times he brought home had diminished.

They were untried.

"I do not know Commissioner Hultman," he said.

RAILROAD SHARES ARE SOUGHT AT NEW LOWS

New York, Dec. 9.—Railroad shares sold at new lows in Wall Street today, following the report of the selling, which was attributed to some of the days' short report of the season. The market was depressed by a statement that New York Central had deferred action on common dividends and a comment on the joint recommendations of President and Secretaries of the Interstate Commerce Commission for increasing taxes.

RAILROAD STOCKS
Losses of 2 to 4 points were registered by Union Pacific, Atchafalaya, New York Central, Lehigh Valley, Delaware & Hudson and Baltimore & Ohio.

Selling spread to the industrial and utility with special activity in the case of the tobacco, chemical and chemical industries. United States Steel was a new low for the present market, declining 2 1/2 points to less than 40.

Losses of 2 to 4 points were registered in American Tobacco, American Telephone & Telegraph, American Can, Western Union, Eastman Kodak and Consolidated Gas, among others.

While the revenue presents advanced jointly by the Interstate Commerce Commission and Secretary Mellon, had been published in the past two weeks, the market has been depressed by the report that the proposed program caused further selling. Investors had been prepared for a stiffening of income tax rates.

TOBACCO INDUSTRY SUFFERING
Reduction of personal exemption to \$1000 and \$2000 had been introduced in the House of Representatives in a bill which would increase in a series of years the exemption from income tax of the income of more than \$5000, but the scope of the measure, particularly in the case of the tobacco industry, apparently surprised investors.

Losses include large losses in tobacco and on transfers of capital stock. In addition, they suggest a loss in automobile, and a charge on telephone, telegraph, electric and radio companies. The latter recommendations led to the heavy selling of tobacco stocks and also American Tobacco.

Further liquidation of telephone shares, and the loss of the dividend of New York Central against declaring a dividend at this time again attracted attention to the heavy selling of railroad shares. In the case of New York Central, the report of continuous dividend payments of \$100,000 per year, which was estimated that approximately 100,000 shares of New York Central capital stock is held by the company.
